Why we can sell for less

There are some concerns that claim on account of their big buying power they are able to buy groceries at prices much lower than the regular, and that everything they carry in stock costs "the farm" less. This is not at all true, and if the consumer will study the wholesale prices, he will understand the truth of the matter.

For a grocer to buy at jobbers prices he must be a jobber and is no other way he can buy from the producer or manufacturer.

The Lehman stores throughout New Jersey are branch stores of the wholesale house 103 Washington street, Newark, and all our orders are sent through the Newark headquarters. The goods of course are bought direct from the big manufacturers and charged to us at exact cost. This enables us to offer everything at the lowest possible price and explain to you why we can undersell all other grocers.

As we buy so we sell and when we save so we can so the more. In the buying you of course get the benefit. L. Lehman & Co are jobbers as well as retailers and we share the advantages and benefits of the wholesale dealer.

Short addresses will be delivered by the Rev. Dr. A. Earle. The large and efficient choir, under the direction of Miss Spicer, will render one of their charming solos. The choir will also sing in the evening service.
