Labor Troubles at Miuna Postponed

After a conference last week between officers of the Empire Steel & Iron Co. and a committee of Local 297, Western Federation of Miners, the local accepted the suggestion of the company that it postpone action on its demands for an increase of seventy-five cents a day until another conference could be held two weeks hence. The miners had asked that the demands become effective September 1.

Company officials told the men that because of the present condition of the pig iron market they did not think that the demands could be granted. Union men declared that they would adhere to their demands and would walk out if the conference could be held two weeks from now does not result in a satisfactory agreement.

Plenty of Game for Hunters This Fall

New Jersey sportsmen are looking forward to one of the biggest upland gunning seasons in recent years as a result of encouraging signs of plentyfulness of game in all rural sections of the State. Farmers in several counties report that they never have seen rabbits and quail more plentiful than they are this year. futuro's tell of having to dodge coves of birds by day and rabbits by night on country roads.

Because of the open winter last year, all game weathered through with little loss. Conditions during the spring and early summer were unusually favorable for the growth of young birds and rabbits, while the State's well enforced protective laws have brought about a practical conservation of game for fall shooting.

NEW JERSEY SHOULD RATIFY THE FEDERAL SUFFRAJE AMENDMENT

BECAUSE it is in accordance with the law. The constitution of the United States provides that when an amendment shall have received the votes of two-thirds of the members of the U.S. Senate and House of Representatives, it shall be referred to the Legislatures of the several States for ratification, and when three-quarters of them shall have voted to ratify it, it shall become the law of the land. The eighteenth proposed Amendments have all been ratified in this way.

BECAUSE a referendum, if the voters would not be legally binding unless the Legislature, although it would cost the State as much money, and the suffragettes as much time and effort as if it were a binding referendum.

BECAUSE a real referendum is to be taken this fall, whereas the voters vote of the candidates for favor or oppose woman suffrage. The suffragists will inform the voters how every candidate stands upon this question.

BECAUSE the election laws of New Jersey make inadequate provision for guarding the vote of special election. In 1916 the election was held on a registration day, and thousand of men voted immediately after registering, thus giving no opportunity for checking up their addresses or right to vote. The police canvass before general election that year removed from the books as "illegally registered" the names of thousands of men, but all of those men had had an opportunity to vote on the suffrage amendment.

Squire L. Headley Weds Miss Zillah M. Hogan

The wedding of Miss Zillah M. Hogan, of Oak Ridge, and Squire L. Headley, of Milton, took place last Saturday evening at the Fletcher home in Oak Ridge, the home of the bride, Rev. Schubert officiated and the bride was given in marriage by her brother, F. A. F. Hogan.

The best man was Norman S. Spargo, of Mount Fern, a cousin of the bride, and Mrs. A. F. A. Hogan was matron of honor while the bridesmaids were Miss Edna Headley, a sister of the bride, and Misses L. Jenkins, cousin of the bride, and Misses H. Angius, of Hackensack, cousins of the bride.

The groom is a son of Mrs. Esther Headley, widow of the late Edward Headley. He served in France with the Third Division as a musician. A reception followed the ceremony and the couple left on a

Horses Electrocuted in the Street at Celvidere

Oscar Boyer, a business man of Celvidere, on Monday lost a valuable horse when it came in contact with a live electric wire just as he was driving out of Celvidere. Mr. Boyer was driving to Bridgewater, where he owns a small business. Another horse had just driven over the wire hanging in the street, and Mr. Boyer supposed it was a dead wire. His horse stepped on the wire and was instantly electrocuted.

Mr. Boyer attempted to examine his horse after it fell and was also badly shocked by the electric current. An investigation developed that the live wire had been up on the highway for some time and that numerous horses had been driven over it without coming in direct contact.

Lesson for September 7

The importance of prayer as a preparation is seen when we consider the nature of the work. The task before us is to convince men that they are lost, and to persuade them to confound their sin and surrender their lives to the Lord Jesus Christ. It is easy to show a thief or a drunkard that he is a criminal, to convince him of his sin and to persuade him to be saved; but it is not easy to persuade a person to persuade a person to be saved. Man that he is a sinner simply because he has not accepted Christ as his Saviour. Sin is so subtle, and the Bible is so plain, and the Holy Spirit is so active, that it is very difficult to convince men that they are lost.

The common idea is that work is the main business of the Christian, and little prayer is necessary to help the work along. Christ's idea is entirely different. In his thought prayer is our chief business, and he devoted enough time to make a channel through which the spiritual force generated by prayer may find an outlet.

Prayer is the bow that supplies the force and work is the feather that guides the arrow to its destination. If you ask: "I will do," he says, in other words, Christ is still doing the work that he had begun (Acts 1:11), and he invites us to help him by prayer, whereas too many Christians think that they are carrying on the work, but need a little help from him. What your idea is may be determined by estimating the amount of time you spend in working for the Lord and the amount spent in prayer.

The Children's Panacea—The Mother's Friend."

What is Castorla?

CASTORIA is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Morphine nor Chlorodyne. Its age is a guarantee.

For more than thirty years it has been in constant use for relief of Constipation, Flatulency, Wind Colic and Diarrhoea; alleviating Fervorishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep.

The Children's Panacea—The Mother's Friend.

The Kind You Have Alway Bought, and which has been in use for over 50 years, has borne the signature of Chas. H. Fletcher, and has been made under his personal supervision since its infancy. Allow no one to deceive you in this.

All Counterfeits, Imitations and "Just-as-Good" are but Experiments that fail. Take this genuine Castorla, and you will find that it is an entirely different preparation from any you have ever known. It is far better than anything else.

Indigestion Caused by Acid-Stomach

Millions of people—In fact, about 9 out of 10—consume large quantities of food and drink that are harmful to their digestive organs. The stomach is constantly subjected to wear and tear, and the result is indigestion and general ill-health. This is a common complaint among city dwellers, especially those who work in offices.

The following are a few of the remedies recommended for indigestion:

1. Avoid heavy meals.
2. Take plenty of water before and after meals.
3. Avoid $5 and meat.
4. Take a teaspoon of baking soda with a glass of water before each meal.
5. Take a teaspoon of cocoa with a glass of milk before each meal.
6. Take a teaspoon of honey with a glass of milk before each meal.
7. Take a teaspoon of castor oil with a glass of milk before each meal.
8. Take a teaspoon of vinegar with a glass of water before each meal.
9. Take a teaspoon of lemon juice with a glass of water before each meal.
10. Take a teaspoon of apple cider vinegar with a glass of water before each meal.
