Fireman On Tuesday Big Rescue

New York and New Jersey have been

War Department officials at the Rockaway Arsenal are investigating the cause of a fire that seriously burned the assn. hall of a number of homes yesterday morning. The fire started about 4:30 p.m. and was extinguished about 5 p.m.

The fire was first noticed in the attic of one of the houses and spread quickly to the other buildings. The fire was reported to the fire department, and a large force of men and equipment was sent to the scene.

The fire caused extensive damage to the homes and surrounding area. The cause of the fire is under investigation.

Several of the homes involved were used as temporary living quarters by members of the military.

The Rockaway Fire Department was called to the scene and fought the fire for several hours. The cause of the fire is unknown at this time.

The Rockaway Fire Department is currently investigating the cause of the fire.

LOOK IN VAIN FOR PERFECTION IN EYE

In a recent Fordham press release, it was reported that the perfect eye is expected from our organs of sight. But in the real world, complete eyes are not to be found. Dr. Frederick A. Wall, director of the hospital eye research laboratory at St. Mary’s Hospital, has been studying the eyes of all walks of life. His recent report indicates that there is no such thing as a perfect eye. There are many people whose eyes are so perfect that they are not affected by the regulatory mechanisms of the body. Dr. Wall’s research has shown that these eyes are not necessarily without defects that can affect their ability to function properly.

In the absence of the perfect eye, we must be content with the eyes we have. As Dr. Wall states, “The perfect eye is a myth. We must learn to live with our imperfect eyes, and we must learn to use them to their best advantage.”

OBD AND INTERESTING

Two men sit at a table, engaged in a lively conversation. One is a farmer, the other a doctor. The farmer is telling the doctor about his recent trip to the city. He tells the doctor about the things he saw, the people he met, and the experiences he had.

The doctor responds by telling the farmer about the things he has learned from his years of practice. He tells the farmer about the cases he has seen, the patients he has treated, and the lessons he has learned.

As the conversation continues, the farmer and the doctor realize that they have much to learn from each other. They agree to meet again soon to continue their conversation.

Summer Slump in Business?

Who Said So?

Now is the time of the year when people begin talking about a "summer slump" in business.

Mr. Merchant this "summer slump" is only a bugaboo that has no real existence.

If your sales are falling off then you MUST ADVERTISE or they will continue falling off.

Advertising is not a seasonal thing, but must be done all of the time—and especially if business is good. It is then that advertising is needed most. Advertisement is the best business Doctor.

If business is good, advertising is needed to keep the ball rolling.

If people went to sleep over the summer months, there would be some justification for this "summer slump" idea. People need as many things in summer as they do in winter.
