Reg. T. M. TANOR, N. J.

Widely known interest has been shown in the Order of Christians, which is becoming more popular as the years go by. The Order of Christmas is the general title of this spiritual organization to join in the progress of great good and benefit.

In connection with this campaign, the following statement is made by Sister Mary of Christ.

The Order of Christians, working through the heads of the spiritual life, fulfilling the word of Jesus Christ, who 'Love one another, as I have loved you," shall remove; and nothing shall be said against them, but every good word which may be heard.

The Order of Christians, through Faith and Prayer, will supply all the money required to form a bond to the United States Government. It is to be used for the purpose of helping the suffering.

A worker at one of our stations, whose wages are $5.00 a week, has five cents in currency, not stamps, for stamps. The Order is not inhibited, and is not towed by salved interest. It is to be paid in a lot that is so arranged.

The Order of Christians, through the issuance of this bond, and the expenses of the organization, have been met through the various donations which have come in.

30,000 Miles in 26,326 Minutes (total elapsed time)

At Atlantic City Speedway, between July 21 and August 9, four regular factory production Studebaker President Eights again proved Studebaker's supremacy in the automotive world.

Under strict supervision of the American Automobile Association, two President Eight roadsters traveled 30,000 miles in less than 27,000 consecutive minutes—19 days and 18 nights of driving at better than 68 miles per hour! Two President sedans averaged 63.99 and 64.15 miles per hour for the same distance! All four cars were strictly stock—chosen at random from Studebaker's assembly line by A.A.A. officials. Even before this great achievement, Studebaker held more official speed and stamina records than all other makes of cars combined. The President with 25,000 miles in less than 23,000 minutes; The Dictator with 5,000 in less than 4,000 minutes; and The Erskine Six, at $560 f. o. b. factory, 1000 miles in 994 minutes.
