"Children Are Locked In South End" Coming Next Week

The attendance record broken. "Children Are Locked In South End" was sold out in advance for the two times today and Fri-

day. The box office was jammed and the hall was crowded to capacity. The attendance figures were not known as of press time, but the following is a typical: average for the previous two performances: 1,500.

The audience was enthusiastic. The drama was well received and the applause was tremendous. The acting was excellent, the sets were elaborate, and the costumes were colorful.

Food Safe-Guarded beyond a shadow of doubt

THE GAS REFRIGERATOR

Foods safeguarded (below 55 degrees) the year round, ice cream ready day or night, 4 fresh chamber to make deserts of all kinds—how are these results achieved in the silent Gas Refrigerator?

Boiled inside a steel tank, sealed in as made forever, is the liquid refrigerant that actually makes cold from heat. As for those changes the liquid to vapor—a triple of water equivalent in bulk again—of the outside climate, a change in whatever. There is no vibration. No wear. A creation made to last for fifty years.

The gas furnace is controlled with safety valves. No gas can flow unless the flame is lighted. Faithfully, steadily, continually, the Gas Refrigerator provides constant cold for only 5 to 10¢ a day. Come in and let us demonstrate this most marvelous and economical of all refrigerators.

Notice

The following notice was handed out on March 16th, 1930, at the Townhall of the Township of Franklin, New Jersey, to the residents of the area.

Notice

The townhall of the Township of Franklin will be closed for the month of April, 1930, for the purpose of constructing a new curb and sidewalk on the road leading to the railroad station. The work will be done by the owner or owner's contractors, in accordance with the regulations of the Township Engineer.

The road will be closed at the railroad station known as Elkhart Road, and the sidewalk and curb will be constructed in a manner to conform with the standard established by the Townhall Engineer. The work will be supervised by the owner or owner's contractors, and all necessary permits and approvals will be obtained before the work begins.

This notice is issued by the Township Engineer, and is signed by the owner or owner's contractors.

It's wise to choose a SIX!

This makes it unnecessary to take the axe apart to examine or clean it.

The New Chevrolet SIX is full of such evidences that true motor car economy comes from modern advancement and refinement.

Like the other cars, the Chevrolet SIX provides the comfort and protection of four spring-controlled hydraulic shock absorbers. They are mounted longitudinally, in the direction of car travel, and self-adjusting spring shackles maintain quiet.

With low suspension and extra wheels, the Chevrolet SIX has excellent proportions.

Its impressive front view is distinguished by the genuine houndstooth radiator, another mark of modern cars.

The gasoline tank is in the chassis, for safety and ease of appearance.

Chevrolet beauty instantly says "body by Fisher"—costly car style, with the permanent quiet integrity of Fisher committee steel-and-wood construction.

Body by Fisher also gives you a genuine non-woven windshield, adjustable steering wheel, more space, deeper and wider riding room, rubber-tired tires, side windows, floor fabrics and trimmings.

There's just as much extra value in the wheelbase, 120-inch standard. The Chevrolet SIX is the greatest value in the low-price field.

It's wise to choose the Chevrolet SIX with its six-cylinder valve-in-head motor, with full electric equipment, with its Body by Fisher, with four long semi-elliptic springs, long shock absorbers, rear-located gas tank, houndstooth radiator and all the other features of this day and age.

See your nearest Chevrolet dealer today and drive a Chevrolet Six. Twenty minutes at the wheel will show you what a difference six cylinders make.
